

WALLAN, VIC

NO THRU ROAD

Yep! No thru road means no thru traffic!

This lovely home comprises three bedrooms, big spacious meals/family room, study and second living area.

In addition, this beautiful seven years young family home has been built with standards in mind with high ceilings (approximately 9ft) and quality fittings such as stainless steel application in a stylish modern kitchen.

The main bedroom is large to say the least and has a more than adequate walk thru robe and a very nice ensuite bathroom.

The remaining bedrooms are conveniently located at the other end of the home adjacent the beautiful bathroom and second living area.

Step outside to the open air patio with built in barbeque and pizza oven ? ?just fantastic!
