CHARMING

Often sought after but rarely found, this is a real charmer! Walk along the rose edged path to the front of the home, step into the porcelain tiled entry and you know you're home. Open plan living zones flow easily throughout the home and extend outdoors to an enclosed pergola which opens to one of the best gardens seen in the area in recent times. Three spacious bedrooms ensure room for the family and the garage offers the added bonus of roller door access to the rear garden. One not to be missed. Call now to arrange an inspection.
