## SALT OF THE EARTH

There are some things after all, that this famous local homestead owner knows for certain: Always throw spilled salt over your left shoulder, keep rosemary by your garden gate, add pepper to your mashed potatoes, plant roses and lavender for luck and fall in love whenever you can. This home is all about love!

This expansive and exquisite executive family focussed home sits on 5 acres of pasture, capturing every morning sunrise as the day tips its hat to the unfettered rolling valley view's and filling your country estate with light.

The creators of this beautiful Pretty Sally estate present this manor home for the first time in a rare offering. Through the grand wrought iron gate entry down long sweeping driveway gives true first impressions of formidable street presence, while providing the privacy that country living demands. A circular courtyard access weather protected drive through
